Acturis Canada
Victoria, British Columbia

Dear Hiring Manager,

I am writing to express my interest in the Tech Support Analyst position at Acturis Canada. As a current undergraduate student in field of computer and software engineering, I have had the opportunity to acquire a diverse set of technical skills, which I believe will be instrumental in this role.

I have always been fascinated by how technology can solve complex problems, and I have honed my skills in this area through my personal projects. Throughout my coursework, I have had the opportunity to collaborate with multiple teams on diverse projects. Currently, I am actively involved in building a software program for Vex Robotics, where I have been able to apply my skills in software application development. In one of my most recent projects, I developed T-Rex, a cross-platform Java runtime application that emulates the classic gameplay experience on multiple platforms. This project allowed me to develop my programming skills and foster my passion for creating user-friendly applications.

I am particularly impressed with Acturis Canada's reputation for investing in and promoting talent, as well as their dedication to creating innovative solutions that drive the insurance industry forward. As someone who is passionate about using technology to solve complex problems, I am excited about the prospect of working with a team of like-minded individuals who are committed to making a real-world impact. I am eager to learn from experienced colleagues, receive structured training and coaching, and take on real responsibility for my own projects. I am confident that this role will provide me with the opportunity to develop both personally and professionally.

Given my current work-term setting, I would be able to take a **4 or 8-month co-op** for up to **two consecutive terms**. Thank you for considering my application, and I would be grateful for the opportunity to discuss how I can contribute to your company.

Most Sincerely,

Arfaz Hossain (He/Him/His)
