COVID-19: Businesses continuing to operate during the pandemic

As the COVID-19 pandemic continues, employers must follow strict health and safety requirements. As in all cases, employers must comply with all employment standards as mandated and overseen by provincial and local authorities. Please note, as a condition of employment some employers require employees to be vaccinated, including student employees. When in doubt about policy or safety concerns, students are advised to discuss concerns with the employer before the interview and/or consult the appropriate authorities.
