**PCL Construction Management Inc**  
Edmonton, Alberta

Dear Hiring Manager:

I am writing to apply for the Information Technology Co-op at PCL Construction Management Inc. As someone who is always eager to learn and grow in my field, I believe that this is an excellent opportunity to gain valuable experience and enhance my skills in software development.

I have a deep fascination for the potential of technology to solve intricate problems, and I am continually refining my skills in developing efficient and dependable software solutions. Throughout my academic coursework, I have collaborated with multiple teams on diverse projects, gaining experience in different areas of software development. In addition to my academic projects, I have completed several personal projects, including developing mobile applications, building my personal web portfolio, and creating an obstacle-based game using Java Swing. These projects have given me the opportunity to work on my own, and I have developed strong problem-solving and debugging skills in the process.

In terms of the specific requirements outlined in the job posting, I am confident that my skills and experiences align with the qualifications sought for the role. I have a solid foundation in programming languages such as C, C++, Java, and Python acquired through my ongoing software engineering degree. I have extensive experience in mobile development, currently working on two separate projects using Swift for iOS and Kotlin for Android. Additionally, I have a keen interest in web development and have been actively expanding my skillset in this area. For instance, I have created a comprehensive portfolio website from scratch utilizing semantic HTML, CSS, and JavaScript, without relying on any external tools or libraries. Currently, I am currently focusing on enhancing the responsiveness and user-friendliness of my website across all devices by expanding my skills in ReactJS and TypeScript.

Given my current work-term setup, I am available for either a 4 or 8-month co-op term and would be open to the possibility of participating in two consecutive terms. Thank you for considering my application. I look forward to the opportunity to further discuss how my skills and experience can contribute to your team.

Most Sincerely,

  
Arfaz Hussain
