PCL Construction Management Inc
Edmonton, Alberta

Dear Hiring Manager:

I am writing to apply for the *Cybersecurity Student - Governance, Risk & Compliance* placement at PCL Construction Management Inc. As someone who is always eager to learn and grow in my field, I believe that this is an excellent opportunity to gain valuable experience and enhance my skills in software development.

I have a deep fascination for the potential of technology to solve intricate problems, and I am continually refining my skills in developing efficient and dependable software solutions. Throughout my academic coursework, I have collaborated with multiple teams on diverse projects, gaining experience in different areas of software development. In addition to my academic projects, I have completed several personal projects, including developing mobile applications, building my personal web portfolio, and creating an obstacle-based game. These projects have given me the opportunity to work on my own, and I have developed strong problem-solving and debugging skills in the process.

In terms of the specific requirements outlined in the job posting, I am confident that my skills and experiences align with the qualifications sought for the role. My academic coursework and personal projects have provided me with ample opportunities to develop critical thinking and analytical abilities. I am also accustomed to working in a fast-paced, technical environment and have gained experience working on complex technical projects, which I believe would enable me to succeed in this role. My exposure to various programming languages and tools, including those commonly used in cybersecurity, highlights my interest in and familiarity with cybersecurity frameworks.

Given my current work-term setup, I am available for either a 4 or 8-month co-op term and would be open to the possibility of participating in two consecutive terms. Thank you for considering my application. I look forward to the opportunity to further discuss how my skills and experience can contribute to your team.

Most Sincerely,

Arfaz Hossain
